

HOSTED PBX

- › NO MAINTENANCE
- › MINIMAL UP-FRONT COST
- › VERSATILE & FLEXIBLE
- › MOBILE SOLUTIONS
- › VARIETY OF FEATURES

› UPGRADE YOUR COMMUNICATIONS SERVICE

Are you ready to upgrade your communications services? Our Hosted PBX brings a big-business phone system to you at a lower cost—and it's easy to use and manage. Employing the latest voice-over internet technology on our state-of-the-art network, you only need a single internet connection for all your voice and data communications needs. If you don't have the resources or the desire to purchase, set up and maintain your own telephone system, this is the ideal communications solution for your business.

Real Business Benefits:

- + Minimal equipment to install, maintain or occupy space on your premises.
- + Your own administrators and users can easily manage and control communications and phone features from any web browser.
- + You'll never need to run separate networks for voice and data again.
- + Our network will automatically handle calls and messages during power outages. In case of disaster, employees can forward calls to their home or to their mobile phones.

**FOCUS ON YOUR BUSINESS,
NOT YOUR PHONE SYSTEM.**
